### About the Lab:

The Touch and Neuropsychopharmacology (T-NPP) Lab at Bar-Ilan University, led by Dr. Leehe Peled-Avron, seeks a dedicated postdoctoral researcher. Our research focuses on understanding how touch influences our well-being and which exogenous substances (such as psychedelic compounds) affect touch behaviorally and neurologically. We are using cutting-edge approaches to uncover the basic mechanisms underlying touch. We operate within the exciting field of psychiatry and psychopharmacology integrating imaging techniques and clinical psychology to advance our understanding.

### Why Join Us?

- Resources: Bar-Ilan University offers unparalleled resources, including the only MEG scanner in Israel and a recent \$260 million donation to fund research.
- Interdisciplinary Approach: Benefit from a fusion of psychopharmacology, imaging and clinical research.
- Supportive Environment: We welcome applicants from clinical psychology, cognitive psychology, and related fields to a diverse, inclusive, and equal-opportunity lab.

### Ideal Candidates:

We are looking for individuals with a PhD in psychology or neuroscience who are passionate about advancing research in the fields of touch and psychopharmacology.

### Application Process:

If you are interested, please reach out to Dr. Leehe Peled-Avron via email at [leehee.peled@gmail.com](mailto:leehee.peled@gmail.com). Feel free to share this opportunity with anyone who might be interested.
